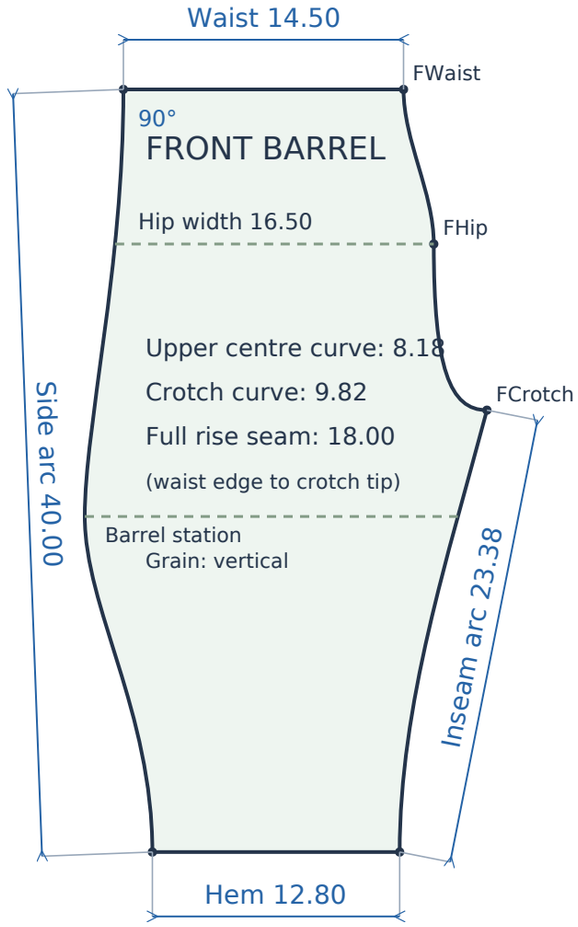
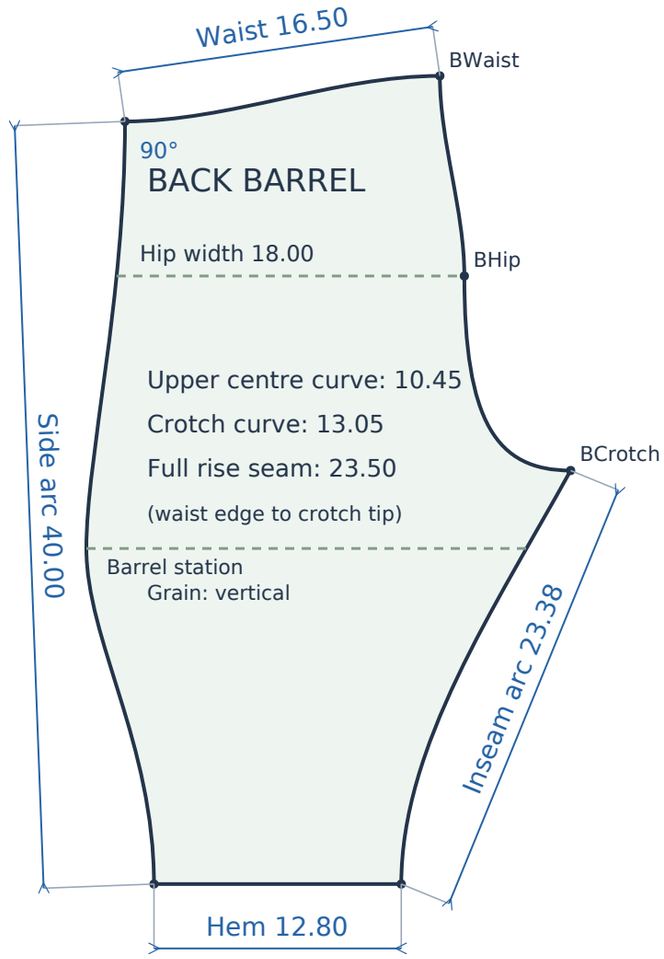
SIZE 86 | Barrel-leg pattern review

All dimensions in cm on STITCHING lines. 1 cm seam allowance is excluded from the shell drawing.

Original barrel-inspired redraft. Full curved side and inseam; not a cutting layout. Fit sample required.



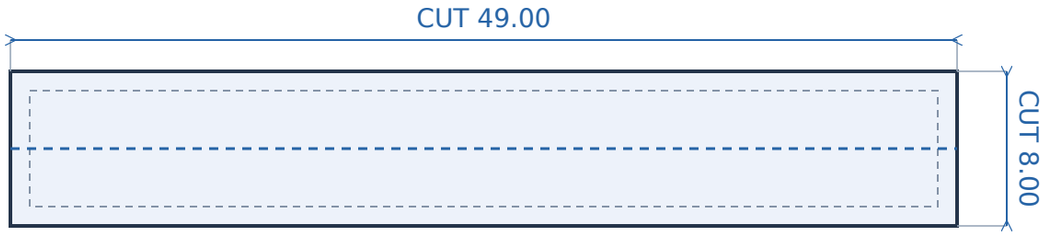


SIZING CHECK

Body waist / hip	50 / 55
Finished shell hip	69.00
Shell waist opening	62.00
Shell side length	40.00
Developed total side	46.00
Front vertical rise incl. band	19.60
Centre-back rise above side	2.36
Shell opening / leg	25.60
Waistband finished height	3.00
Cuff finished height	3.00
Waist/side angles F / B	90° / 90°

46.00 cm is developed fabric length.
Cuffs sit at the ankle; excess blouses.
Crotch seam length differs from
vertical rise and from body height.
Rib lengths remain provisional.

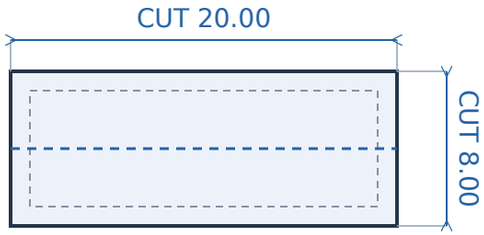
WAIST RIB — cut 1



Relaxed loop 47.00; finished height 3.00

Dashed centre = fold; inner dashed box = stitch line.

ANKLE RIB — cut 2



Relaxed loop 18.00; finished height 3.00

Dashed centre = fold; inner dashed box = stitch line.

HOW TO READ THIS SHEET

Curved-edge labels are seam-walked lengths; dimension arrows connect endpoints.
Front and back each cut as a mirrored pair. Two hem widths make the opening of ONE leg.
Full shell crotch seam (front + back, excluding waistband): 41.50 cm.
The body was measured over diaper and leggings. Baste and check standing, sitting and squatting.
The drawing is a sizing snapshot, not a fitted guarantee or print-to-cut layout.
